Ting Orthodontics

Record Policy on Complimentary Consultation

Welcome to your complimentary orthodontic consultation. Ting Orthodontic staff will perform a panoramic x-ray along with diagnostic photographs to aid Dr. Ting in diagnosing the best treatment for you.

Patients/Parent/Guardians are not financially responsible for the above mentioned x-rays and photos. In the event that you should need these to be forwarded outside of our office for your personal use or to any other party, we will require that you sign a separate official release of records form with Ting Orthodontics. A records fee of $75.00 for the photos and $70.00 for the x-ray would be applied.
